

# Millennial Design

## Bollard Light

Millennial Design bollard is a handcrafted, modern, pathway light that effortlessly combines form and function, enhancing outdoor spaces with its sleek and contemporary design. The Millennium walkway light features clean lines and a minimalist aesthetic that seamlessly integrates with modern landscapes. Emitting a warm and inviting glow, the LED technology within the fixture ensures energy efficiency and long-lasting illumination. Whether lining a garden walkway or adorning a contemporary patio, the modern pathway light not only guides footsteps but also adds a touch of sophisticated style to outdoor environments, creating a harmonious blend of practicality and aesthetics.

## MATERIAL

Nightscaping's® Millennium Bollards are constructed from 11 gauge, SQ, solid steel tubing. The Cor-Ten Steel top is easily removable with a single Alan-head screw. This creates easy access to the luminaire's internal components.

## FINISHES

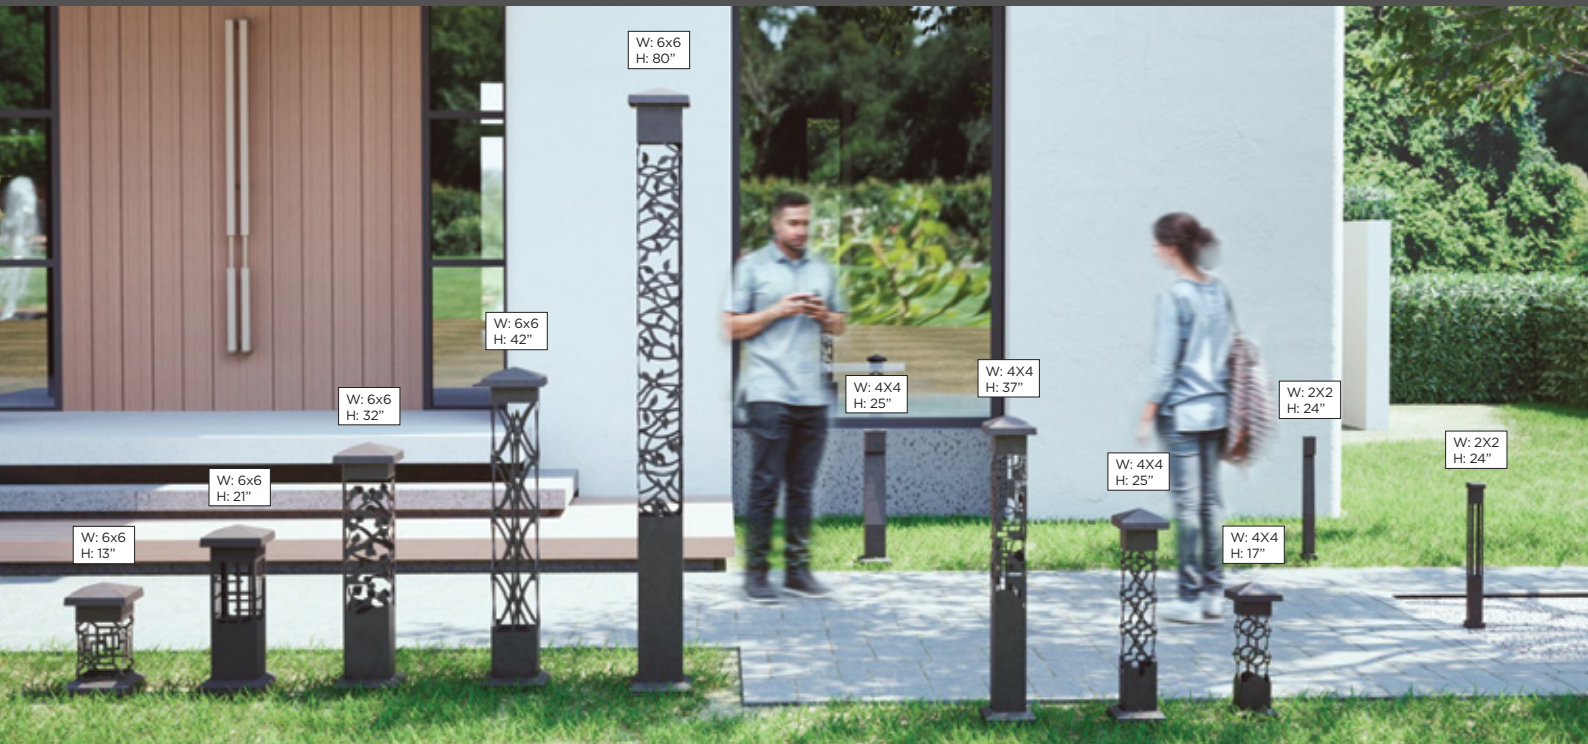

Rust

Hammered  
Bronze

Black

## MOUNTING OPTIONS

For the 2x2's, a 14", ABS injection molded, plastic stake with 1/2" NPS threaded female fitting is included with every luminaire. For the 4x4 and 6x6s, a stainless steel PVC mount is available. The Nightscaping® bollards can also be surface mounted using the Universal Mounting Plate (see website for details).

## WIRING

25ft 18AWG, UL Listed, copper wire that is protected by Black Polyvinyl Chloride (PVC).

## LAMP ADJUSTMENT

Each luminaire has an adjustment feature to not only adjust the distance of the light spread but also help to prevent light glare.

## OPTIMAL VOLTAGE

Recommended voltage range for 12V Nightscaping® LEDs is 11V - 15V components.
